

● ICAP-supported regions by project.

Program Start

2015

Key Technical Areas

Population-based HIV Impact Assessments

Current Funders

Centers for Disease Control and Prevention (CDC)

Current Projects

● Population-based HIV Impact Assessment (PHIA)

ICAP is providing technical assistance to the Ministry of Health and Child Care to conduct a population-based HIV impact assessment survey to assess HIV prevalence, incidence, and access to prevention, care, and treatment services. Survey findings will be used to assess the impact of Zimbabwe's HIV response at a national level and to help guide and target future investment and programs. *(funded by PEPFAR through the CDC)*
